Skeletal Radiology

Founded in 1976.

Volumes 1-8 (1976-1982) edited by J. Edeiken, H.G. Jacobson, R.O. Murray, and P. Jacobs (replaced R.O. Murray from Volume 7, Number 3, 1981, to Volume 8, Number 3, 1982)

Volume 9 (1982/83) edited by J. Edeiken, H.G. Jacobson, and W.M. Park (deceased)

Volumes 10 and 11 (1983/84) edited by J. Edeiken, H.G. Jacobson, and R.O. Murray

Submission of a manuscript implies that the work describes has not been published before (except in the form of an abstract or as part of a published lecture, review or thesis), that it is not under consideration for publication elsewhere, that its publication has been approved by all the authors and by the responsible authorities – tacitly or explicitly – in the institutes where the work was carried out and that, if accepted, it will not be published elsewhere in the same form, in either the same or another language, without the consent of the copyright holders. By submitting a manuscript the authors agree that the copyright for their article is transferred to the International Skeletal Society if and when the article is accepted for publication. The copyright covers the exclusive rights to reproduce and distribute the article, including reprints, photographic reproductions, microform, electronic data base, video disks, or any other reproductions of similar nature, and translations. Photographic reproduction, microform, electronic data base, video disks, or any other reproduction of text, figures, or tables from this journal is prohibited without permission obtained from the International Skeletal Society.

The use of general descriptive names, trade names, trade marks, etc., in this publication, even if the former are not specifically identified, is not be interpreted as exempt from the relevant protective laws and regulations.

While the advice and information in this journal is believed to be true and accurate at the date of going to press, neither the authors nor the editors nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.

Special regulations for the USA

Photocopies may be made for personal or internal use beyond that permitted by Section 107 or 108 of the U.S. Copyright Law, provided a fee is paid. This fee is \$0.20 per page or a minimum of \$1.00 if an article consists of less than five pages. Please pay this fee to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0364-2348, volume, and first and last page numbers of each article copied.

The copyright owner's consent does not extend to copying for general distribution, for promotion, for creating new works, or for resale. Specific written permission must be obtained from the International Skeletal Society for such copying.

Other regulations

Authors of this journal can benefit from library and photocopy fees collected by VG WORT if certain conditions are met. If an author lives in the Federal Republic of Germany or in West Berlin it is recommended that he contact Verwertungsgesellschaft WORT, Abteilung Wissenschaft, Goethestraße 49, D-8000 München 2, for detailed information.

Subject Index

- Acetabular fractures, computed tomography in the management of 22
 Actinomycetes as the causative organism of osteomyelitis in sickle cell disease 271
 Aggressive fibromatosis, Gardner syndrome with (*case report*) 56
 Ainhum — an unusual presentation involving the second toe in a white male 133
 Alcaptonuria, radiologic manifestations in 204
 Algodystrophy, parcellar, of the left femoral head [i.e. localized (focal) transient osteoporosis] associated with synovial chondromatosis of the hip (*case report*) . . . 69
 Alveolar sarcoma of soft parts (malignant non-chromaffin paraganglioma) (*case report*) 229
 Announcements 159
 Announcements 82
 Announcements 235
 Arthritis, gouty: a prospective radiographic evaluation of sixty patients 1
 Arthrographic diagnosis: loose bodies of the temporomandibular joint 42
 Arthrography and the medial compartment of the patellofemoral joint 183
 Arthrosis, primary cystic, of the hip 124
 Arthro-tomography, computed tomography, and scintigraphy: radiology of giant cell tumors of bone 85
 Articulations, computed tomography of the sternum and its 197
 Beta thalassemia affecting the facial bones and skull (intermediate form) (*case report*) 307
 Biopsy, thin needle, of small lytic bone lesions, computed tomography guided 289
 Breast, metastasis to right ilium from cytosarcoma phylloides of (*case report*) 213
 Bronchogenic carcinoma, skeletal cortical metastases in the left femur arising from (*case report*) 297
 Calvaria, cryptococcal osteomyelitis of the (*case report*) . . . 221
 Capillary hemangioma of the sphenoid bone 102
 Carcinoma, bronchogenic, skeletal cortical metastases in the left femur arising from (*case report*) 297
 Cervical spondylosis, the genetic factor in 178
 Children, chondrosarcoma in, subsequent to other malignant tumours in different locations 96
 Children, young, radiographic clues to fractures of the unossified medial humeral condyle in 209
 Chondroblastic osteosarcoma of tibia, grade IV (*case report*) 73
 Chondromatosis, synovial, of the hip, parcellar algodystrophy of the left femoral head associated with (*case report*) 69
 Chondrosarcoma in children subsequent to other malignant tumours in different locations 96

- Chondrosarcoma of the right trapezoid bone (*open-quiz solution*) 137
- Computed tomography, arthro-tomography, and scintigraphy: radiology of giant cell tumors of bone 85
- Computed tomography, comparative study using: tumor infiltration of the bone marrow 17
- Computed tomography guided thin needle biopsy of small lytic bone lesions 289
- Computed tomography in the management of acetabular fractures 22
- Computed tomography of the sternum and its articulations 197
- Computerised tomography, early vertebral involvement assessed by: multiple myeloma 258
- Cortical metastases, skeletal, in the left femur arising from bronchogenic carcinoma (*case report*) 297
- Cryptococcal osteomyelitis of the calvaria (*case report*) 221
- Cystic arthrosis, primary, of the hip 124
- Cytosarcoma phylloides of breast, metastasis to right ilium from (*case report*) 213
- Development, radiology of postnatal skeletal. IX. Proximal tibia and fibula 169
- Diabetic neuropathic disorder (osteoneuropathy), with bilateral Lisfranc fracture – dislocations of feet (*case report*) 155
- Digital film processing: applications to the musculoskeletal system 274
- Dislocation of jaws 38
- Dislocations of feet – diabetic neuropathic disorder with bilateral Lisfranc fracture (*case report*) 155
- Dissemination, widespread, in the skeleton as well as lymph nodes and probably the liver and spleen, malignant lymphoma with (*case report*) 224
- Dysplasia epiphysealis hemimelica – Trevor disease (*case report*) 147
- Dysplasia, fibrous, of the femoral neck 119
- Epiphysealis hemimelica, dysplasia – Trevor disease (*case report*) 147
- Erecta, luxatio 47
- Erratum 234
- Ewing sarcoma, spinal: misleading appearances 262
- Facial bones and skull, beta thalassemia affecting the (*case report*) 307
- Feet, dislocations of – diabetic neuropathic disorder with bilateral Lisfranc fracture (*case report*) 155
- Femoral head, left, parcellar algodystrophy of the, associated with synovial chondromatosis of the hip (*case report*) 69
- Femoral neck, fibrous dysplasia of the 119
- Femoral shaft, high-grade "surface" osteosarcoma arising from the (*case report*) 77
- Femur, left, osteoblastoma of the lesser trochanter of the (*case report*) 65
- Femur, left, skeletal cortical metastases in the, arising from bronchogenic carcinoma (*case report*) 297
- Fibromatosis, aggressive, Gardner syndrome with (*case report*) 56
- Fibrosarcoma and malignant fibrous histiocytoma of long bones: radiographic features and grading 237
- Fibrous dysplasia of the femoral neck 119
- Fibula and tibia, proximal. Radiology of postnatal skeletal development 169
- Focal hematopoietic hyperplasia of the rib – a form of pseudotumor 108
- Foramina, sacral 282
- Fractures, acetabular, computed tomography in the management of 22
- Fractures of the unossified medial humeral condyle in young children, radiographic clues to 209
- Ganglioneuroblastoma, poorly differentiated, arising from the left tenth rib and probably involving the left ninth rib (*case report*) 151
- Gardner syndrome with aggressive fibromatosis (*case report*) 56
- Genetic factor in cervical spondylosis 178
- Giant cell tumor of tarsal bones. Report of three cases and review of the literature 266
- Giant cell tumors of bone, radiology of: computed tomography, arthro-tomography, and scintigraphy 85
- Gouty arthritis: a prospective radiographic evaluation of sixty patients 1
- Grade IV chondroblastic osteosarcoma of tibia (*case report*) 73
- "Handedness" of spiral fractures of the tibia 128
- Hemangioma, capillary, of the sphenoid bone 102
- Hematopoietic hyperplasia, focal, of the rib – a form of pseudotumor 108
- Hemimelica, dysplasia epiphysealis – Trevor disease (*case report*) 147
- High-grade "surface" osteosarcoma arising from the femoral shaft (*case report*) 77
- "Hip, irritable, syndrome", isotope scanning in the 32
- Hip, primary cystic arthrosis of the 124
- Hip, synovial chondromatosis of the, parcellar algodystrophy of the left femoral head associated with (*case report*) 69
- Histiocytoma, malignant fibrous, and fibrosarcoma of long bones: radiographic features and grading 237
- Humeral condyle, unossified medial, in young children, radiographic clues to fractures of the 209
- Hyperplasia, focal hematopoietic, of the rib – a form of pseudotumor 108
- Ilium, right, metastasis to, from cytosarcoma phylloides of breast (*case report*) 213
- Infiltration, tumor, of the bone marrow: comparative study using computed tomography 17
- Innominate bone, left, post-radiation osteosarcoma of, with pulmonary metastasis arising from irradiated site of a previously diagnosed and treated lymphoma of bone (left innominate bone) (*case report*) 216
- "Irritable hip syndrome", isotope scanning in the 32
- Isotope scanning in the "irritable hip syndrome" 32
- Jaws, dislocation of 38
- Joint, temporomandibular, loose bodies of the: arthrographic diagnosis 42
- Leukaemia, monocytic, associated with myeloid metaplasia, resembling metastatic bone disease 9
- Ligament tears, meniscotibial (coronary) 191
- Lisfranc fracture, bilateral, diabetic neuropathic disorder with – dislocations of feet (*case report*) 155
- Liver and spleen, probably, and lymph nodes, malignant lymphoma with widespread dissemination in the skeleton as well as (*case report*) 224
- Loose bodies of the temporomandibular joint: arthrographic diagnosis 42
- Lumbar vertebral bodies, scalloping and destruction of pedicles of, on the right side secondary to venous collaterals, associated with thrombosis of the inferior vena cava (*case report*) 293
- Luxatio erecta 47
- Lymph nodes and probably the liver and spleen, malignant lymphoma with widespread dissemination in the skeleton as well as (*case report*) 224
- Lymphoma, malignant (large cell, immunoblastic type)

- with widespread dissemination in the skeleton as well as lymph nodes and probably the liver and spleen (*case report*) 224
- Lymphoma of bone, previously diagnosed and treated, post-radiation osteosarcoma of left innominate bone with pulmonary metastasis arising from irradiated site of a (*case report*) 216
- Lytic bone lesions, small, computed tomography guided thin needle biopsy of 289
- Malformation, periosteal (parosteal, juxtacortical) vascular (*case report*) 303
- Malignant fibrous histiocytoma and fibrosarcoma of long bones: radiographic features and grading 237
- Malignant lymphoma (large cell, immunoblastic type) with widespread dissemination in the skeleton as well as lymph nodes and probably the liver and spleen (*case report*) 224
- (Malignant non-chromaffin paraganglioma) alveolar sarcoma of soft parts (*case report*) 229
- Malignant tumours in different locations, chondrosarcoma in children subsequent to other 96
- Marrow, bone, tumor infiltration of the: comparative study using computed tomography 17
- Meniscotibial (coronary) ligament tears 191
- Metaplasia, myeloid, monocytic leukaemia associated with, resembling metastatic bone disease 9
- Metastases, skeletal cortical, in the left femur arising from bronchogenic carcinoma (*case report*) 297
- Metastasis, pulmonary, arising from irradiated site of a previously diagnosed and treated lymphoma of bone, post-radiation osteosarcoma of left innominate bone with (*case report*) 216
- Metastasis to right ilium from cystosarcoma phylloides of breast (*case report*) 213
- Metastatic bone disease, monocytic leukaemia associated with myeloid metaplasia, resembling 9
- Methotrexate osteopathy 13
- Monocytic leukaemia associated with myeloid metaplasia, resembling metastatic bone disease 9
- Multiple myeloma: early vertebral involvement assessed by computerised tomography 258
- Musculoskeletal system, applications to the: digital film processing 274
- Myeloid metaplasia, monocytic leukaemia associated with, resembling metastatic bone disease 9
- Myeloma, multiple: early vertebral involvement assessed by computerised tomography 258
- Needle, thin, biopsy of small lytic bone lesions, computed tomography guided 289
- Neuroblastoma (or poorly differentiated ganglioneuroblastoma) arising from the left tenth rib and probably involving the left ninth rib (*case report*) 151
- Neuropathic, diabetic disorder (osteoneuropathy), with bilateral Lisfranc fracture – dislocations of feet (*case report*) 155
- Open quiz 81
- Open quiz 158
- Open quiz 232
- Open quiz 310
- Os odontoideum (oo) (*case report*) 144
- Osteoblastoma of the lesser trochanter of the left femur (*case report*) 65
- Osteodystrophy, ureamic, periosteal new bone in 50
- Osteomyelitis, cryptococcal, of the calvaria (*case report*) 221
- Osteomyelitis in sickle cell disease, actinomycetes as the causative organism of 271
- Osteomyelitis, *Salmonella*, of radius associated with sickle cell disease (*case report*) 60
- Osteoneuropathy with bilateral Lisfranc fracture – dislocations of feet (*case report*) 155
- Osteopathy, methotrexate 13
- Osteopoikilosis: a radiological and pathological study 161
- Osteosarcoma, high-grade "surface", arising from the femoral shaft (*case report*) 77
- Osteosarcoma of tibia, grade IV chondroblastic (*case report*) 73
- Osteosarcoma, parosteal, of the pubis (*case report*) 141
- Osteosarcoma, post-radiation, of left innominate bone with pulmonary metastasis arising from irradiated site of a previously diagnosed and treated lymphoma of bone (left innominate bone) (*case report*) 216
- (Paraganglioma, malignant non-chromaffin) alveolar sarcoma of soft parts (*case report*) 229
- Parcellar algodystrophy of the left femoral head [i.e. localized (focal) transient osteoporosis] associated with synovial chondromatosis of the hip (*case report*) 69
- Parosteal osteosarcoma of the pubis (*case report*) 141
- Patella and tibial tuberosity. Radiology of postnatal skeletal development 246
- Patello-femoral joint, arthrography and the medial compartment of the 183
- Pathological and radiological study: osteopoikilosis 161
- Periosteal new bone in ureamic osteodystrophy 50
- Periosteal (parosteal, juxtacortical) vascular malformation (*case report*) 303
- Postnatal skeletal development, radiology of. IX. Proximal tibia and fibula 169
- Postnatal skeletal development, radiology of. X. Patella and tibial tuberosity 246
- Post-radiation osteosarcoma of left innominate bone with pulmonary metastasis arising from irradiated site of a previously diagnosed and treated lymphoma of bone (left innominate bone) (*case report*) 216
- Pseudotumor, a form of – focal hematopoietic hyperplasia of the 108
- Pubis, parosteal osteosarcoma of the (*case report*) 141
- Pulmonary metastasis arising from irradiated site of a previously diagnosed and treated lymphoma of bone, post-radiation osteosarcoma of left innominate bone with (*case report*) 216
- Radiographic, a prospective evaluation of sixty patients 1
- Radiographic clues to fractures of the unossified medial humeral condyle in young children 209
- Radiographic features and grading: fibrosarcoma and malignant fibrous histiocytoma of long bones 237
- Radiologic manifestations in alcaptonuria 204
- Radiological and pathological study: osteopoikilosis 161
- Radiology of giant cell tumors of bone: computed tomography, arthro-tomography, and scintigraphy 85
- Radiology of postnatal skeletal development. IX. Proximal tibia and fibula 169
- Radiology of postnatal skeletal development. X. Patella and tibial tuberosity 246
- Radius, *Salmonella* osteomyelitis of, associated with sickle cell disease (*case report*) 60
- Rib, focal hematopoietic hyperplasia of the – a form of pseudotumor 108
- Rib, left tenth, neuroblastoma arising from the (*case report*) 151
- Sacral foramina 282
- Salmonella* osteomyelitis of radius associated with sickle cell disease (*case report*) 60
- Sarcoma, alveolar, of soft parts (malignant nonchromaffin paraganglioma) (*case report*) 229

- Sarcoma, spinal Ewing: misleading appearances 262
- Scalloping and destruction of pedicles of lumbar vertebral bodies on the right side secondary to venous collaterals, associated with thrombosis of the inferior vena cava (*case report*) 293
- Scintigraphy, computed tomography, and arthro-tomography: radiology of giant cell tumors of bone 85
- Sickle cell disease, actinomycetes as the causative organism of osteomyelitis in 271
- Sickle cell disease, *Salmonella* osteomyelitis of radius associated with (*case report*) 60
- Skeletal development, radiology of postnatal. IX. Proximal tibia and fibula 169
- Skeletal development, radiology of postnatal. X. Patella and tibial tuberosity 246
- Skeletal (predominately) cortical metastases in the left femur arising from bronchogenic carcinoma (*case report*) 297
- Skull and facial bones, beta thalassemia affecting the (*case report*) 307
- Sphenoid bone, capillary hemangioma of the 102
- Spinal Ewing sarcoma: misleading appearances 262
- Spiral fractures of the tibia, "handedness" of 128
- Spleen and liver, probably, and lymph nodes, malignant lymphoma with widespread dissemination in the skeleton as well as (*case report*) 224
- Spondylosis, cervical, the genetic factor in 178
- Sternum and its articulations, computed tomography of the 197
- Syndrome, Gardner, with aggressive fibromatosis (*case report*) 56
- Synovial chondromatosis of the hip, parcellar algodystrophy of the left femoral head associated with (*case report*) 69
- Tarsal bones, giant cell tumor of. Report of three cases and review of the literature 266
- Temporomandibular joint, loose bodies of the: arthrographic diagnosis 42
- Thalassemia, beta, affecting the facial bones and skull (intermediate form) (*case report*) 307
- Thrombosis of the inferior vena cava, scalloping and destruction of pedicles of lumbar vertebral bodies on the right side secondary to venous collaterals, associated with (*case report*) 293
- Tibia, grade IV chondroblastic osteosarcoma of (*case report*) 73
- Tibia, "handedness" of spiral fractures of the 128
- Tibia, proximal, and fibula. Radiology of postnatal skeletal development 169
- Tibial tuberosity and patella. Radiology of postnatal skeletal development 246
- Toe, second, in a white male, an usual presentation involving the - Ainhum 133
- Trapezoid bone, right, chondrosarcoma of the (*open quiz solution*) 137
- Trevor disease - dysplasia epiphysealis hemimelica (*case report*) 147
- Trochanter, lesser, of the left femur, osteoblastoma of the (*case report*) 65
- Tuberosity, tibial, and patella. Radiology of postnatal skeletal development 246
- Tumor, giant cell, of tarsal bones. Report of three cases and review of the literature 266
- Tumor infiltration of the bone marrow: comparative study using computed tomography 17
- Tumors, giant cell, of bone, radiology of: computed tomography, arthro-tomography, and scintigraphy 85
- Tumours, malignant, in different locations, chondrosarcoma in children subsequent to other 96
- Ureamic osteodystrophy, periosteal new bone in 50
- Vascular malformation, periosteal (parosteal, juxtacortical) (*case report*) 303
- Vena cava, inferior, thrombosis of the, scalloping and destruction of pedicles of lumbar vertebral bodies on the right side secondary to venous collaterals, associated with (*case report*) 293
- Vertebral involvement, early, assessed by computerised tomography: multiple myeloma 258
